

Integrated Documentation

TECHNICAL TRANSLATION

Technical translation requirements are employed by various clients in both the commercial and technical sectors in meeting the requirements of overseas markets. We are involved in translating:

- Administration Material
- Contractual Documents
- Data Sheets
- Installation Manuals
- Operating Manuals
- Maintenance Manuals
- Publicity Material
- Technical Reports
- Technical Specifications
- Training Manuals

I-Doc is highly experienced in providing technical translation and we offer a complete service for major projects and specialise in these popular languages of international trade and engineering:

- French
- German
- Spanish
- Arabic

Expertise in other languages can be made available upon request.

If you would like more information, please do not hesitate to contact us.
